## **DETAILED ACTION**

### ***Election/Restrictions***

1. Applicant's election without traverse of claims 1-14 in the reply filed on January 31, 2005, is acknowledged.

### ***Specification***

2. The disclosure is objected to because of the following informalities: On page 8, lines 17-18, the specification attempts to incorporate a patent application by reference; however, the serial number and filing date are not disclosed.

Appropriate correction is required.

3. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the elected claims are directed.

### ***Allowable Subject Matter***

4. Claims 1-14 are allowed.
5. The following is an examiner's statement of reasons for allowance: The prior art neither shows nor suggests a magnetic head with a sacrificial layer disposed above a second electrical insulation layer disposed above a media heating device, in combination with a first electrical insulation layer disposed below said media heating device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

6. This application is in condition for allowance except for the following formal matters:

Non-elected claims 15-22 are pending.

Objections to the specification and title are outstanding.

Prosecution on the merits is closed in accordance with the practice under *Ex parte* Quayle, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hamann et al (US PAP No. 2004/0240109 A1) show a magnetic recording head with heating device 100 (see Figs. 1 and 3A).
